Old Dutch Foods Inc. of St. Paul, MN is voluntarily recalling a limited number of Flavored Potato Chip and Tortilla Chip products that were made with milk ingredients supplied by one of its' secondary seasoning component suppliers Valley Milk Products LLC, due to the potential risk of *Salmonella* contamination. *Salmonella* is an organism that can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Healthy persons infected with *Salmonella* often experience fever, diarrhea (which may be bloody), nausea, vomiting, and abdominal pain. In rare circumstances, infection with *Salmonella* can result in the organism getting into the blood stream and producing more severe illnesses such as arterial infections (i.e., infected aneurysms), endocarditis and arthritis.

Product was distributed nationwide through grocery and other retail stores.

The recall includes the following seasoned Potato Chip and Tortilla Chip products and their respective product code dates (which is most easily identified on the front of the package):
